

JONATHON KNOWLES

Setting Chimes For 4/4 Westminster Movements

1. Secure clock mechanism firmly to your clock project
2. Before putting on hands insert a C Cell battery into back of mechanism.
3. Turn hand setting wheel on back of mechanism slowly until you hear the chimes start.
4. Allow the Westminster tune to play through and then count the chimes.
5. Remove the battery
6. Push on the hour hand to number of chimes you have counted (e.i. 6 chimes then set hour hand on 6 o'clock) then put on minute hand at 12:00.
7. Then set clock to normal time
8. Reinsert C cell battery.
